Man is perhaps the most curious creature in the world, constantly searching not only for his environment but for everything in this vast universe, to know its reality. This discovery has taken him to the moon, stars, and galaxies millions of light-years away today. One of the mysteries of the first universe, some of which have been unveiled and many more are yet to be discovered. Thousands of years of scientific research, question and answer, and discovery have taken place, but the scientific revolution that took place in Europe almost four hundred years ago today has led to the falsification of thousands of years old theories and hypotheses Along with the current, new principles were developed in physics, and tools came into being that helped to better understand the origin and origin of the universe. Man is still trying new ways to create a comprehensive and clear picture of the universe. You may have heard the name 'Big Bang', and you may have read and heard a little bit about it. Let me draw a clear picture of it in front of you today. The Big Bang is an English word meaning big bang, The Big Bang is actually the explosion that created our universe. According to this theory, before the universe came into being, all matter was confined in a very light place equal to onethousandth of a needle. If the matter has a lot of energy, more energy than any other source in the world, then gravity becomes a force that pushes things away from each other instead of pulling them towards itself. So, according to science, this was the starting point of the Big Bang, when all matter began to move away from each other very rapidly after an explosion-like situation and spread into space. At that time, due to its high speed, the universe began to expand rapidly. Today, 13.8 billion years have passed since the beginning of this 'Big Bang', our universe. Most of you will wonder, how can anyone tell the age of the universe? So the Hubble Space Telescope has given us the answer. The oldest galaxy we find in images taken with the help of this telescope is 13.4 billion light-years away from Earth. And Cloning is basically a process that involves the use of asexual reproduction to reproduce any living thing, or in other words, reproduction. Asexual reproduction or reproduction is defined as reproduction, the reproduction, the reproduction in which, like sexual reproduction, the reproduction or reproduction in which, like sexual reproduction, the reproduction in which, like sexual r cells (or hereditary substances) produce new organisms. You may be read Kainat K Sarbasta Raz or Cloning Urdu Book by Dr. Muhammad Moazzam or Quran Aur Science by Sayyid Qutb بگ بينگ س كلوننگ تكيرُوفيسر طفيل ڈھان Muhammad Bin Qasim Novel by Naseem Hijazi Books Urdu PDF free download or read online from this Urdu books library. Muhammad bin Qasim In this novel, Mr. Naseem Hijazi has described the conquest of Sindh by Muhammad bin Qasim in a very interesting way. Muhammad bin Qasim is one of the best novels of Naseem Hijazi. His real name is Sharif Hussain but his pen name is Naseem Hijazi. He is a famous novelist. His novels are mostly about history and the rise and fall of Muslims. They are based on a story. There are some great qualities in your writing style. Your prose is excellent and smooth. When the reader starts the novel, he breathes a sigh of relief. The characters are positive and powerful. I also give importance to positive moral values. His novel also has a story of love and affection, but the way of presenting it is so clear that the reader does not feel bad at all. We've already featured one of your most popular novels, Andheri Raat Ke Musafir (The Dark Night Traveler), the second, Aur Talwar Toot Gai (The Sword Broken), and the third, Akhri Chatan (The Last Rock) in this blog, which readers loved. Muhammad bin Qasim In this novel, Mr. Naseem Hijazi has described the great conqueror of the history of Islam Muhammad bin Qasim's conquest of Sindh in a very interesting way. Links have been provided to read this book online and download it in PDF format. We hope you will use it and share it with us in this scholarly work. Hijazi was a great historian. He has portrayed historical events in such a way that sometimes his eyes get dazzled while reading and sometimes a person's passion and guest to do something is created. Read his novels that not only human beings. Naseem Hijazi was born on March 2, 1914, in Sajanpur, a village in East Pakistan. After becoming Pakistan, he migrated with his family in 1947 and settled in Lahore. He spent most of his life in Pakistan. He got his primary education from Islamia College, Lahore in 1938. Naseem Hijazi was a historical novelist. He wrote many novels, some of which are as follows: And the Sword Broken, Dastan Mujahid, Muhammad Bin Qasim, The Last Battle, The Last Rock. Naseem Jajazi was not only a historical novelist but also a participant in Tehreek-e-Pakistan and Pakistan. There were also people who fought for freedom. He did great good to his homeland through the pen. Naseem Hijazi was awarded the Medal of Merit by the Government of Pakistan in 1992. Naseem Hijazi passed away on March 2, 1996, the day of his birth. I agreed to read Naseem Hijazi's book "Muhammad Bin Qasim". The biggest reason for reading was my interest in history and reading, but after reading this novel by Naseem Hijazi "Muhammad bin Qasim", his guest to read more novels and more interest in history became deeper. The reason for writing this book by Naseem Hijazi was that after reading Dastan-e-Mujahid by his friends and acquaintances, there was a strong devotion and love for "Muhammad bin Qasim" in the heart of Naseem Hijazi himself. The homeland should be in the heart of the Muslims of the subcontinent. Naseem Hijazi's novel "Muhammad Bin Qasim" consists of two parts. The first part is named after a girl named "Nahid" whose one voice gave rise to the conquest of the whole of Sindh and the second part "The young and the young ruler" ie In the name of Muhammad ibn Oasim. The first part of the book indicates the history of which we do not find knowledge in textbooks or in the great historical books. In this part not only the characteristics of the true believer are described. There is also the story of a great-believing woman and her patience and gratitude. The most special thing about this part is how we can make an enemy a friend even in the most difficult of circumstances. How can we show a straight path to a person who has strayed from a path? Somewhere there are rays of hope, somewhere there are aspirations of trust in Allah with patience and gratitude. Some of them are coaches from the heart and many non-Muslims have entered the realm of Islam. Many such stories are included in the first part. The second part deals with the relationship between Muhammad ibn Qasim and Hajjaj ibn Yusuf, the "minor and young ruler", the complexities of this relationship and the situation in Arabia from Muhammad ibn Qasim's personal life and the current Amir al-Mu'minin and the nominee All the events are also present. By reading this part, such a state of feeling and emotion is created in the heart of every young person that he wants to know his life for a specific purpose. If a mother reads this novel, of course, a desire arises in her heart that I too should give a son like Muhammad bin Qasim to this country and nation. I too can have the honor of being the mother of such a son. The novel depicts a young man with an excellent and high level of morality. How the 12000 armies turned into an army of more than one lakh and the highest examples of morality are found in this novel. It is sad. I think this is an excellent novel about history in which the truth of history has been paid in the true sense but the death of Muhammad bin Oasim which is mentioned in this book is found differently in different books. In addition, the novel ends with the funeral of Muhammad ibn Qasim, if it contains a cursory account of Muhammad ibn Qasim's wife and children, it becomes a source of further satisfaction and a source of information. I would recommend this book to every mother and every young person to read because there is a dearth of mothers and young people in our society today who are in dire need of our society. حجازي
