Photo of courtesy: American stock / classicstock / getty images If you've ever seen films like The Great Gatsby (2013), The Artist (2011) or Chicago (2002), it's easy to think about the 20s as a great party. All night owls of the time have often been bred in music, dances and illegal cocktails with patrols, Shebas and Bearcats until the sun has arrived à € "or not? The 1920s were really so smart? Yes, there was an economic boom and a cultural revolution pushed by the invention of some important technologies. However, not everyone had the money to throw gatsby level ragers all the time. More than 100 years after the beginning of a tumultuous decade, people are still fascinated by the colorful reputation of Roaring 20s. Is this charm justified? Now that we are dying a different kind of Roaring 20s à € "but one who is still marked by a pandemic and an uncertain economy à € " Let's take a look back and see how wild wilderness really was a century ago. The times were certainly changing in America at the beginning of the 1920s. More Americans lived in the city that in rural areas for the first time. At the same time, technological innovations were on the rise, creating an increase in consumerism produced in bulk that had all running in department stores. Automobiles, telephones, radio, refrigerators and other common devices were sold at prices than families might afford. Photo of courtesy: Bettmann / Getty Images Most of the country also felt the effects of the end of the First World War. Religious leaders and government officials had less than a stronghold on the way people behaved, who let them feel more free than ever before. Women were able to vote, wear more provocative clothing, drive cars and have occasional sex, thanks to the invention of the contraceptive diaphragm device. Meanwhile, African Americans founded the movement for civil rights, partly due to the Renaissance Harlem, a wave of progressive art and sociological literature. While people had a sense of freedom to express themselves, not everyone had the funds to launch incredibly decadent parties. However, their appetite for consumerism and leisure recreation activities with the optimistic economy. For those who could not indulge in opulent festivals and discos, there have been many other popular ways to have fun. Photo Courtesy: Puttnam / Topical Press Agency / Hulton Archive / Getty Images At the end of the 1920s, there were radio in more than 12 million families, with 500 stations that played music and stories of airing around the clock. Families spent hours sitting on their floors in the living room listening to the programs as a convenient way to enjoy a night in. If they wanted to go outdoors, a journey to the cinema was incredibly common. About 75% of all Americans visited the cinemas every week. If they haven't had money for a movie, families or groups of friends wanted to head for the fun of it. it. Trips without real destination were a great bargain back in the 1920s. Who would have thought that traffic could be so fun? If you have been among the lucky town inhabitants with access to huge bank accounts, then the 1920s were certainly a good roaring moment. Lots of nightclubs played jazz, blues and dance music along the night for travelers. Many of these nightclubs were also technically takeaways that provided alcohol, which was illegal during prohibition. Those clubs were where the fashionable patrols were in short skirts and sports stuffed sports haircuts and heavy make-up with little attention given to the pressure of the company to be the young courteous women. Photo Courtesy: bpk / salomon / ullstein bild / getty images but not every decadent indulgence came to the dance floor. To enter the searched "pages of trust" of the newspapers, the real key was to host your dinner party. Extravagant dinners at your home with a great staff of waiters and chefs were the real key for a good roaring. The guest had to invest thousands of dollars in personalized flowers and papers alone, not to mention the various jellies, meats and sandwiches regularly found on the buffet table. For the most exclusive moments, guests have launched theme parties for their guests of the high society. You could dress like the founding fathers, Hawaiians, prisoners or even children to entertain your participants. Of course, all these exclusive social events came to symbolize a decade of pure decline, thanks to a temporarily growing economy. Not everyone continued with Joneses during this wild period in history, but the ability to dance the Charleston to jazz music (without an iPhone in pocket to distract you) has kept alive the spirit of the Roaring 20s. Correct answer: correct answer: correct answer: correct answer: correct answer: jhm carelink is a web-based application to link JHM members' organizations to community practices. Through JHM Carelink, community users can get secure access to select patient information in the JHM EMR data repository and improve care continuity. This continuity provides many benefits for our patients, including the following: provides a more transparent flow of information among doctors. It makes it easier for external doctors place references and orders at JHM. Connect JHM doctors with specialists who use e-visits, providing care to a larger group of patients. It allows JHM to send information releases electronically to community clinics. It provides community clinics access to review the patient's graph for coding and follow-up on complaints. It allows the coordination of social services outside the JHM. JH CARELELINK is not one EMR; It is an application for more read-only with some service-oriented functionality, such as the entrance to the order of procedure and co-distribution of domestic health orders. JH CARELELINK provides reference doctors the access to doctor documents of their patients for 90 days after a medical doctor Laboratory tests or imaging, outpatient visits or hospitalization of Johns Hopkins hospital, Johns Hopkins Bayview Medical Center, Hopkins Hospital General Hospital, Sibley Memorial Hospital, Johns Hopkins Hopkins All services for hospital children and Johns Hopkins Hopkins. It is also possible to order a specialized consultation to be programmed by the patient. Community users outside JHM that need to review the clinical and administrative information of patients observed within Johns Hopkins's medicine memberships organizations. Users of the Community could include the following: the reference doctors referring to medical doctors in doctors The doctors of the Community of the doctors and their staff supporting legal offices or agencies that require documentation through his healthcare organizations based on the community and public health There is no cost associated with the use of JHM Carelink. Internet access using a commercial browser like Chrome (recommended) or Safari. The use of Internet Explorer is discouraged. You can request access JHM Carelink for clinical staff, non-collection staff and office administrators in your practice. Every staff member will have to enroll in Johns Hopkins Carelink, electronically sign terms and conditions and respect the patient's privacy rules. You and your clinical staff, including doctor's assistants, nurses, administrative staff and office manager will have access to your patients' medical records. At least one person on your site must be designated as a site administrator, which will have additional administrative responsibilities. Reset Self-Service Password (available 24 hours) The site administrator can reset my password? Yes, the site administrator can reset the password. I forgot my password and / or my challenge questions. Please call the Helpd Desk, available 24 hours a day, 855-284-5465 and ask to open a Carelink ticket to the reset password. Please allow up to 48 hours for the processing of the request. We strongly encourage you to configure the challenge questions so you can restore the password automatically via Self-Service. Since you have access to the full version of the epicha when you are in the hospital, please use the cart supplied on that version. Contact your local technical support. The printing functional is not controlled by Carelink. You need to check if the local computer has the correct drivers and configuration for the network or local printer. The doctor needs to grant access to the nurse before. Once this is done, the nurse can stick to the desired cart. Please ask the search coordinator to add the patient to the group. Please refer to page 20 of the following guide. Please refer to this tip sheet. If you cannot find the patient, please contact the registry at 410-955-5000 to verify the patient's complete demographic information. Please contact the site administrator, who is your first point of contact for any questions/problems. If the site administrator is unable to help you, call the help desk, available 24 hours a day, 7 days a week 7 855-284-5465 and ask for help with Carelink. Please contact JHM Carelink team at HopkinsCareLink@jhm.edu. This is not for urgent problems, and the Carelink team will respond within 48 hours.
