The good thing is that you can see the last connection of your contacts (unlike the original version). You do not need root access on your Android or activity key to change your connection status: WhatsApp Plus (last verse 19.00.0) Download WhatsApp Plus If you also want to have two Whatsapps on the same Android device, we recommend that you download another APK file named GBWhatsApp to associate it with another number on the same cell phone. The reasons is that whatsapp plus compresses media files before sharing them. We can also increase the limit of sent files and thus be able to send large music files and video preserving the original quality without limitations. We have a hidden mode and when it is activated, even if you are logged in, your contacts see a last connection with the a line connection. In both cases, you can manage the two WhatsApp accounts associated with both numbers from the same mobile. To install GBWhatsApp will not be necessary to uninstall whatsapp and you can combine it with WhatsApp Plus or WhatsApp Pattern, or Whether you may have: WhatsApp Pattern associated with a phone number + GbwhatSApp (is identical to whatsapp plus) associated with the other number of phone. &nbsp; Whatsapp plus associated with a phone number + GbwhatsApp associated with the other number of phone.All under the same Android.GB WhatsApp Pro device (last version 19.00.0) Download Gbwhatsapps take a look at some of its best features than the Differentiate from WhatsApp Pattern: Disable Internet Only for WhatsApp so that you do not bother us with messages or calls: From the menu => privacy We can hide many options and we will continue to see those of our contacts without problems: men => Schedule messages: To schedule a particular message at a specific date and time, for example, congratulate a birthday in the case of forget-it.menu => more adjustments => me rebecer euq snegasnem sa sadot arap otua satsopser rarugifnoc edop aAcov .odatcnocsed jAres e oderges me rasrevnoc somedop sAN :zeveveR ,sejAAnuf savon e oEASArugifnoc ed sepASApO siam ,unem ,snocitome serohlem ,soledom e samet sovon moc ppastahw ues o razilanosrep arap ppastahw ed dom j -à eA ,snocitome sovon ,soviuqra sod ohnamat o ratnemua arap sulP ppAstahW .AÍ aAcov e luza acif acopip asse odnauq sonem otium e megasnem a uebecer aAcov euq atoned euq acopip saud sa ofArev ofAn sotatnoc sues ,ossid mEÁIA .eled osu rezaf oa atnoc aus odinab res edop e ppAstahW od laicifo ovitacilpa od ofASÁacifidom amu ©Á ofASÁacilpa atsE euq somaton odnaton .soremAn setnerelid a odalcoosa ohcirpac omsem od ortned pasaw soirAv ret arap edadivon amu omoc uovert siam ppastahw ,ppastahwby ,ppastahwq ,ppafasw ,ppastahw olitse ppamsaW ,iuqad ritrap A a.oEASÁinup ed saroh 42 arepse e sulP pasaw raL odnitsini avtase edadilaneq asosed adAs A .sulP ppastahw o moc rabaca arap adaicnereq laicifo ofASrev aus me uoroprocní ele euq sairohlem s Á adalcoicida amrof atsE "oEÁssimrep uo otmemiechnoc ues o mes sorietret ed sovitaclipa moc sepASÁamrofni saus ehlitrapmoc sulP ppAstahW o euq levÁssop Á" uohlapse ppastahW o euq odacinumoc o ©Á etsE .oEÁssimrep aus mes sorietret moc sepASÁamrofni siat odnahlitrapmoc e .ocisr ed sodavtrp e siaossep sodad e sodazirtua ofAn sonretxe sodad sodaredisnoc meres arap Isaroh 42( etnemairosivorp ppAstahW satnoc rednepus dom esse marasu euq soirÁusu soa adinab res a raSÁemod ed laicifo ofASrev a ofÉAn sam ,ppAstahW od soirÁusu so ertne edadiralupop ednarg amu uoturfesd sulP ppAstahW od airÁtsiH .rednopser edop ofÉAn aAcov odnauq soirÁroh seleuqa arap atirce roiretna megasnem amu adot a uo opury mu arap ,otatnoc odanimretd mu a etnemacitamotua rednopser arap :acitÁmotua atpsper ed megasnem => sepASÁarugifnoc siam => unem )socipÁt ed etocap mu somaxiab sÁnt( socipÁT WhatsApp Plus?
